I have worked as a production assistant on these shows and more.

I am organised, punctual and widely experienced.

I started out as a runner so understand all levels of this industry.

I am experienced in using both Mac and windows programmes including word and excel.

I am experienced in working long and unsociable hours this is not a problem to me as I really enjoy my job.

I feel my experience and skills would be an asset to any future employer.

I have assisted stage managers and driven shuttles buses when the situation required it as I have learnt to understand that flexibility is key in the entertainment industry.
